ReadMe

1. Open the file in Matlab (There will be two files "b09901116_hw3_bonus.m")
2. Click "Run All" on Matlab and the graph will pop out.
3. The question and numbers are labeled at the top of the pop-out window.
4. I used poissrnd function, which might require a download of plugins, if needed, it will be stated in the workspace.
